

Organizing and branding

Application

Applications

Four components to the **application**:

Documentation Configuration

- Expose model diagram to visualize the application entities and rules.

Folders & Actions:

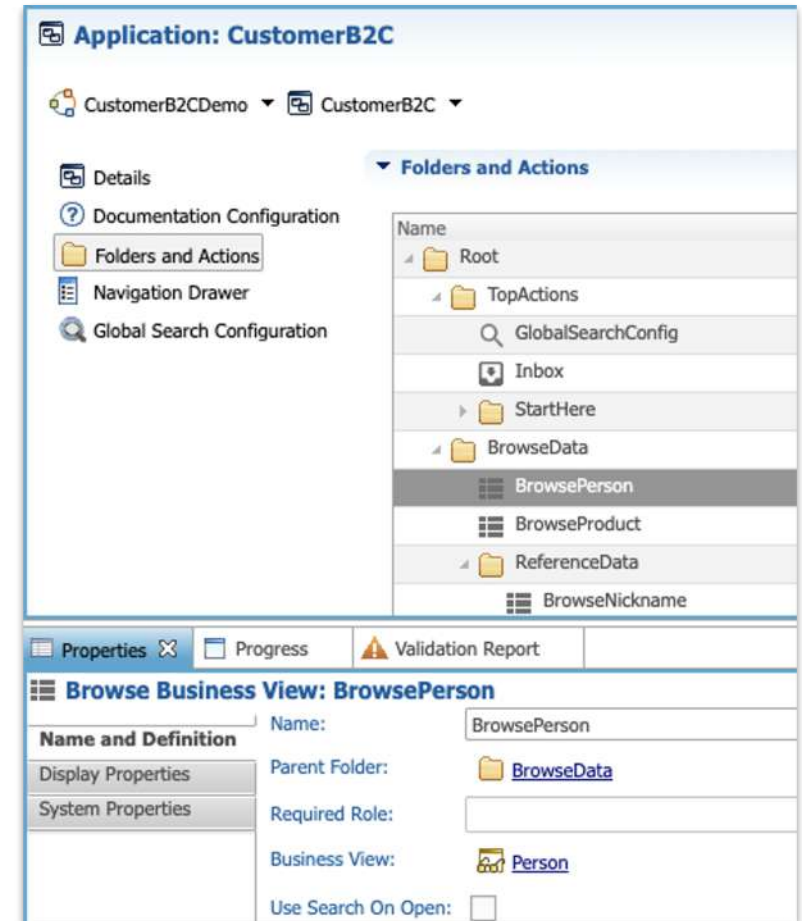

- Build this using Action Sets and Business Views

Navigation Drawer:

- Uses the Folders created in “Folders and Actions” (above) to arrange what you see in the Navigation sidebar

Global Search Configuration:

- Defines the “homepage” view of xDM

Organizing and branding

Folders and actions

Folders and Actions

Define the **Actions** and **Business Views** that are **accessible** by end users:

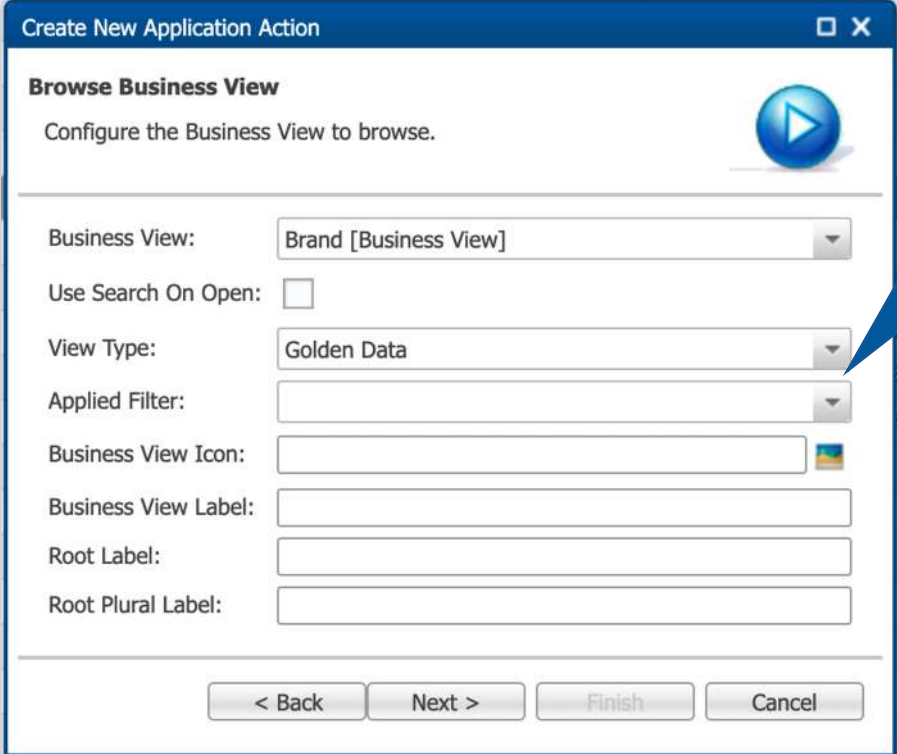

- Business Views
 - Browse
 - Import
 - Create
- Global Search
- Inbox
- Open URL
- Profile

Name	Label

ProductCatalog	Product Catalog
AllProducts	All Products

Folders and Actions

On a Business View, you can **choose** which part of the **lineage** you want to show

- Golden Data
- Master Data
- Source Error
- Source Data

Create New Application Action

Browse Business View

Configure the Business View to browse.

Business View: Brand [Business View]

Use Search On Open: ☐

View Type: Golden Data

Applied Filter:

Business View Icon:

Business View Label:

Root Label:

Root Plural Label:

< Back Next > Finish Cancel

One Business view to show different data depending on the applied filter

Theming

Application Color Theming

You can configure **color** theming for your application :

▼ Color Theming	
Title Bar Default Color:	css:#A6363B
Title Bar Default Contrast Color:	
Title Bar Error Color:	css:#435F76
Title Bar Error Contrast Color:	
Title Bar Authoring Color:	css:#CBC4A8
Title Bar Authoring Contrast Color:	css:#555555
Sidebar Default Color:	css:#A6363B
Sidebar Default Contrast Color:	
Sidebar Error Color:	css:#435F76
Sidebar Error Contrast Color:	
Sidebar Authoring Color:	css:#CBC4A8
Sidebar Authoring Contrast Color:	css:#555555
Primary Color:	md:brown
Secondary Color:	
Error Color:	md:blue-grey

The screenshot shows the 'Airstrides Contrails Speedy Cross-trainers' product page in the Semarchy application. The page is titled 'Product Authoring' and shows the product details for 'Airstrides Contrails Speedy Cross-trainers' by 'Airstrides'. The product ID is 10103. The description states: 'These sneakers will make you feel like you're running on clouds. Superior comfort with enhanced performance. Exceptional quality materials guarantee durability and support.' The image shows a pair of blue and white sneakers. The page includes a sidebar with navigation options and a top bar with the 'Products' menu. The 'General Information' tab is active, showing fields for Name, Brand, Family, and Sub Family. The Family is set to 'Womens shoes (WOMENSSHOES)' and the Sub Family is 'Athletic (Womens shoes)'. The Image field contains the URL 'https://s3.amazonaws.com/semarchy-tutorials/10072-MAIN.jpg'. A 'CONTINUE' button is visible at the bottom right.

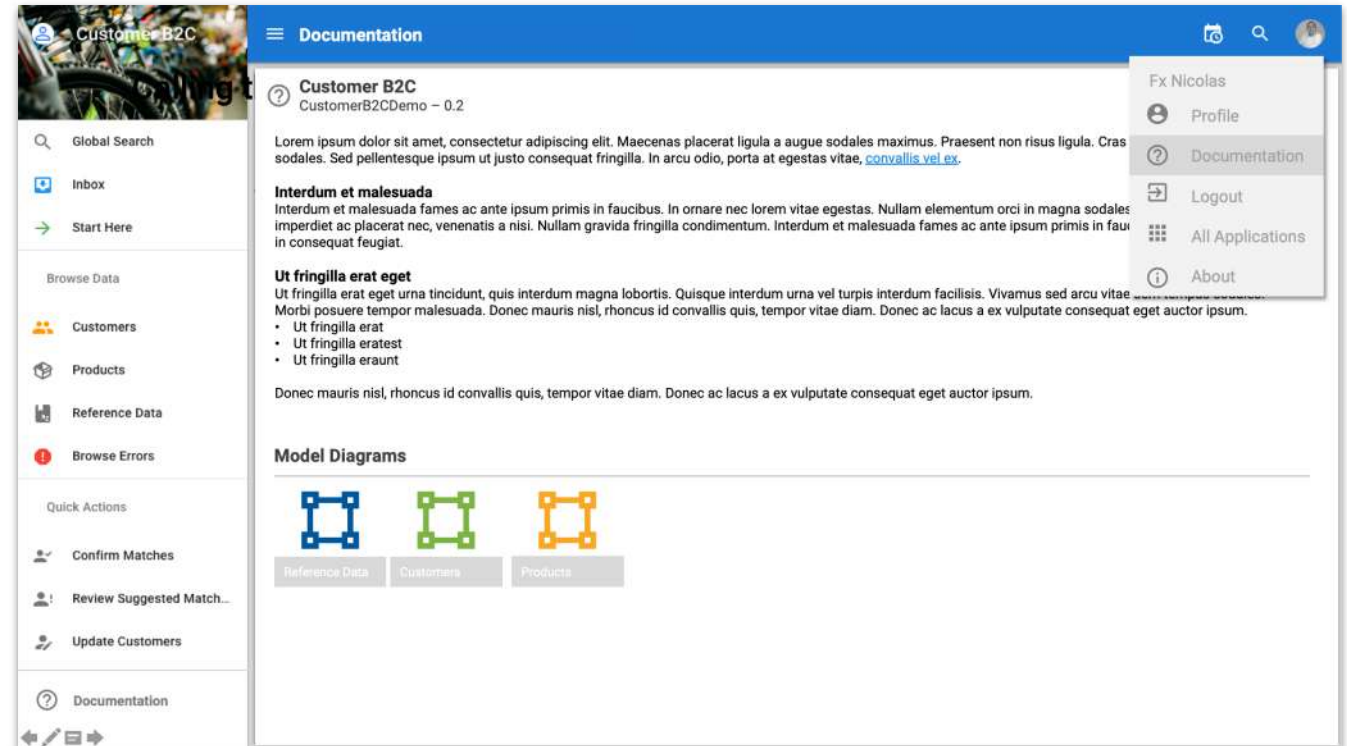

Organizing and branding

Runtime documentation

Runtime documentation

- Model documentation is available from your application
- Welcome page with introduction
- Supports multiple diagram
- Allows browsing for:
 - Entities
 - Attributes
 - Enrichments
 - Data quality
 - Relationships

Hands-on

Lab 10
