

Creating duplicate managers

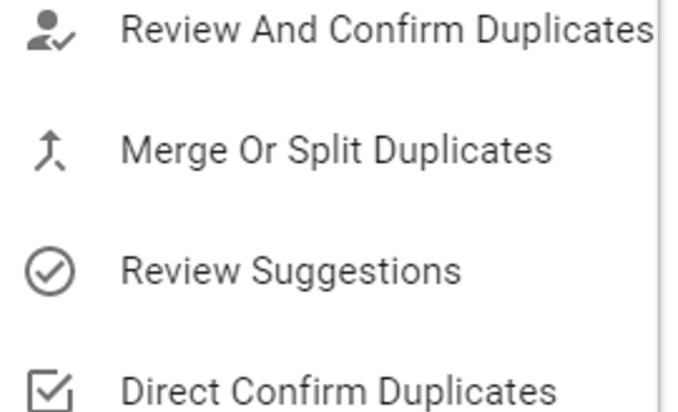

Duplicate managers

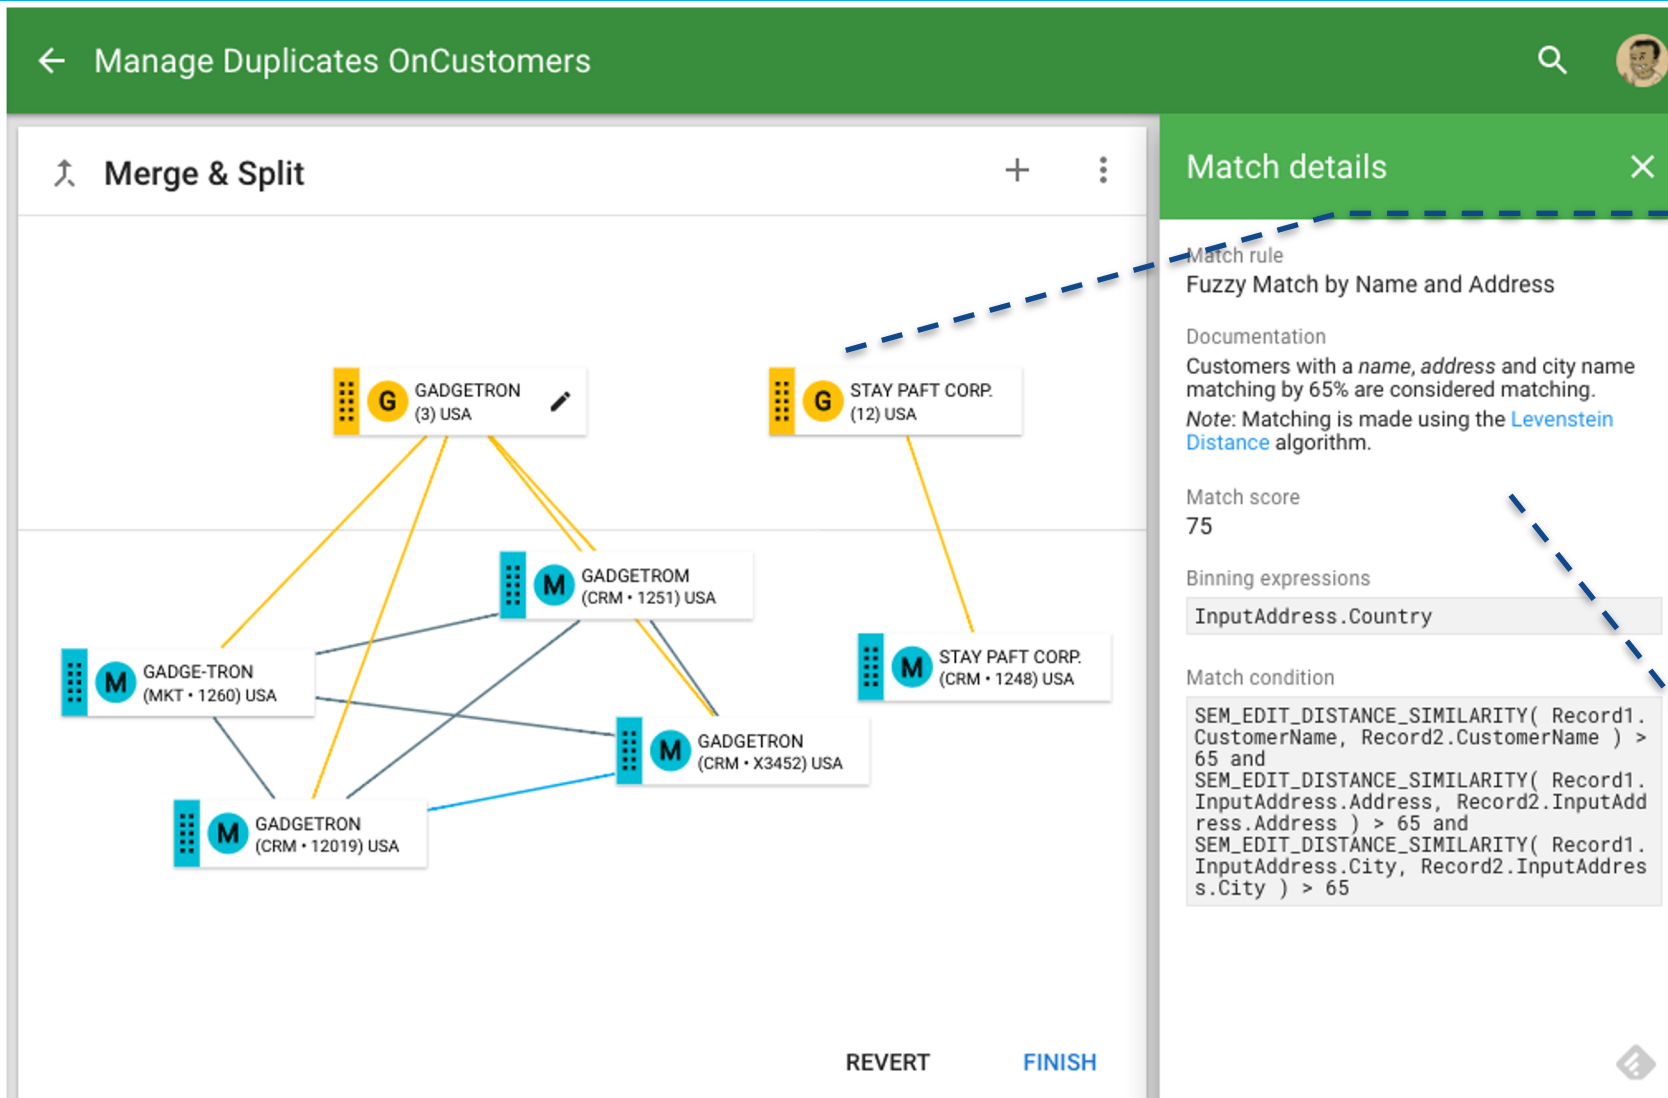

What are Duplicate Managers?

Interface for **data stewards** to **review** and **take action** on **Fuzzy Matched Records**:

- **Review and Confirm Duplicates**: confirm groups of fuzzy matched records after reviewing details
- **Merge or Split Duplicates**: reorganize groups of fuzzy matched records
- **Review Suggestions**: accept, reject or reorganize suggestions on groups of fuzzy matched records
- **Direct Confirm Duplicates**: single click confirm

Duplicates Management - Graph view

Graphical Management

Visualize and manage duplicates and suggestions using drag and drop.

Matching Explained

Matched record appear with the match rule that relates them, grouped under their golden record.
