

Designing visual bricks

Forms

Forms

- Composed of:
 - **Form fields**
 - Attributes, SemQL expressions
 - **Embedded collections**
 - List of related records
- Organized into:
 - **Tabs**
 - **Sections** (visible)
 - **Containers** (invisible)

The screenshot shows a mobile application interface for a location entry form. At the top, the header displays the Chevron logo and the text "CHEVRON - CVX" followed by the address "6001 Bollinger Canyon Rd. San Ramon, CA 94583". Below the header is a navigation bar with tabs: MAIN, LOCATION (selected), CONTACTS, OPPORTUNITIES, REPORTS, INVOICES, SUPPORT, and HIERARCHIES. The form is divided into two main sections: "Input Address" and "Enriched Address". The "Input Address" section contains fields for Address Line (6001 Bollinger Canyon Rd.), City (San Ramon), State (CA), Zip Code (94583), and Country (USA). The "Enriched Address" section displays the same information in a structured format: Street Number (6001), Street Name (Bollinger Canyon Road), Locality (San Ramon), PostalCode (94583), State (CA), Country (United States), and Coord Longitude (-121.9638005). To the right of the form is a map showing the location of the address, with a red pin marking the location. The map includes labels for nearby streets, landmarks like Central Park and Bishop Ranch Regional Preserve, and a Target store. The Google logo is visible at the bottom of the map.

Form fields properties

- **Form fields** display attribute values using SemQL
- A form field has a set of **properties** to configure its behavior and appearance.
- The main property is the field's **Component Type**. The component type is the UI component used to display and author this field in the form. Component types include Text, Image, Checkbox, Date Picker, etc.
- Many properties can be dynamic using SemQL expressions to modify their appearance or visibility.

The screenshot shows the 'Properties' window for a form field named 'Form Field: FirstName'. The window is divided into two main sections: 'General' and 'Component'.

General Section:

- Name: FirstName
- Value: FirstName
- Custom Label: ☐
